

BASSAM KAMAL

550 University Avenue, Charlottetown, PE, C1A 4P3.
(902) 978-2417 | bassamkamal.py@gmail.com | bbrizly.github.io

OBJECTIVE: Third-year Computer Science student passionate about full-stack development, systems design, and AI/ML applications. Seeking a tech internship to leverage expertise in algorithm optimization, procedural generation, and scalable software solutions.

EDUCATION

Bachelor of Science in Computer Science with a specialization in Video Games Sept 2022 - Present
University of Prince Edward Island Charlottetown, PE **GPA: 3.8**

Relevant Coursework: Algorithms, Data Structures, Linear Algebra, Computer Graphics

TECHNICAL SKILLS

- **Languages:** C++, Java, Javascript, GLSL, C#, SQL, C, Python
 - **Frameworks & Libraries:** OpenGL, PyTorch, TensorFlow Lite, Assimp, React
 - **Concepts:** Procedural Algorithms, Memory Optimization, Localization Systems, OOP, REST APIs
-

PROJECTS

Custom Game Engine | [repo](#) | C++, OpenGL

- Lightweight custom game engine leveraging dynamic trees for spatial partitioning & frustum culling.
- Real-time optimized physically based lighting solution only affecting regional nodes.
- **Text Renderer:** Word-wrapping, hyphenation, and localization, achieving 60fps+ for 10k+ characters.
- **Transferable Skills:** System Architecture, Memory management, Algorithmic optimization

Particle System | [repo](#) | C++, OpenGL

- Features highly optimized spawn-update-render loop with multiple affectors, 60fps+ for 50k particles.
- Supports diverse emitter shapes and blending techniques for realistic visual effects.

Procedural Cityscape Generator | [repo](#) | C++, OpenGL

- Created customized Voronoi generation algorithm for procedurally split polygons.
 - Optimized rendering using texture array techniques, minimizing draw calls and increasing performance by 200%.
-

WORK EXPERIENCE

Teaching Assistant

University of Prince Edward Island, Prince Edward Island, Canada Jan 2025 - Present

- Clarifying course material, debugging code, and guiding students through programming challenges.
- Assisting students' conceptual understanding in CS and Math-related subjects.

Campus Events Coordinator

UofCanada Campus, New Administrative Capital, Egypt Jan 2023 - July 2024

- Led tech workshops on Git and Python, increasing student participation by 20%.
- Automated event scheduling with Python scripts, reducing manual workload by 10 hours/week.

Languages: Fluent in English and Arabic

Github and project demos available on website
